

# Compliance checklist

To review compliance regulations and standards, read the [controls, frameworks, and compliance](#) document.

## ☐ **The Federal Energy Regulatory Commission - North American Electric Reliability Corporation (FERC-NERC)**

The FERC-NERC regulation applies to organizations that work with electricity or that are involved with the U.S. and North American power grid. Organizations have an obligation to prepare for, mitigate, and report any potential security incident that can negatively affect the power grid. Organizations are legally required to adhere to the Critical Infrastructure Protection Reliability Standards (CIP) defined by the FERC.

### **Explanation:**

## ☒ **General Data Protection Regulation (GDPR)**

GDPR is a European Union (E.U.) general data regulation that protects the processing of E.U. citizens' data and their right to privacy in and out of E.U. territory. Additionally, if a breach occurs and a E.U. citizen's data is compromised, they must be informed within 72 hours of the incident.

### **Explanation:**

## ☒ **Payment Card Industry Data Security Standard (PCI DSS)**

PCI DSS is an international security standard meant to ensure that organizations storing, accepting, processing, and transmitting credit card information do so in a secure environment.

### **Explanation:**

☐ **The Health Insurance Portability and Accountability Act (HIPAA)**

HIPAA is a federal law established in 1996 to protect U.S. patients' health information. This law prohibits patient information from being shared without their consent. Organizations have a legal obligation to inform patients of a breach.

**Explanation:**

☒ **System and Organizations Controls (SOC type 1, SOC type 2)**

The SOC1 and SOC2 are a series of reports that focus on an organization's user access policies at different organizational levels. They are used to assess an organization's financial compliance and levels of risk. They also cover confidentiality, privacy, integrity, availability, security, and overall data safety. Control failures in these areas can lead to fraud.

**Explanation:**

**General Data Protection Regulation (GDPR):** Botuim Toys Inc. is selling products worldwide and thus, is subject to regulation by the EU in how it keeps customer data safe.

**Payment Card Industry Data Security Standard (PCI DSS):** Due to the nature of instant online payments, Botium Toys Inc. should comply with this standard immediately in order to avoid fines.

**System and Organizations Controls (SOC type 1, SOC type 2):** As an expanding business, Botuim Toys Inc. is past the minimum threshold for implementing appropriate security measures. The system administrator or other qualified employee must clearly demonstrate the user access policies that ensure data safety for both employees and customers.
